

WHY NATRACURE®?

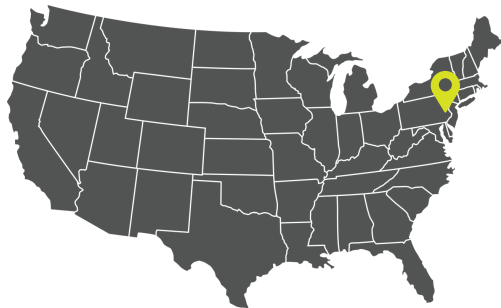

Our parent company, PolyGel®, entered the marketplace in 1999 primarily as a provider of unique gel materials for the professional healthcare industry.

Drawing on over 25 years of gel manufacturing experience, we recognized the need to improve on the available therapies in the marketplace.

To better serve the consumer market, the NatraCure® brand was born. It was founded with the idea of using our same high-quality medical technologies, but adapting them for consumer use. And our committed team of professionals live and breathe our motto each and every day: **Your comfort is our goal.**

We're located in Easton, PA. And all of our products are designed right here in the USA!

OUR
PROPRIETARY
TECHNOLOGIES

SmartBead™

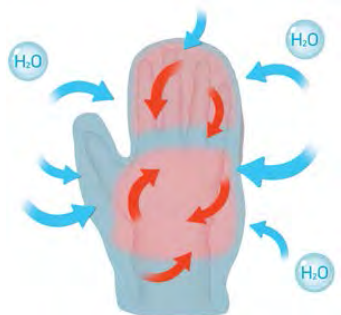

Microwavable SmartBead™ Technology provides deep-penetrating, moist heat therapy for various parts of the body.

About Moist Heat

A time-tested favorite of chiropractors and other healthcare professionals, moist heat has been shown in clinical studies to penetrate affected tissue more deeply than dry heat, which may have a greater effect on pain reduction.

- Provides long-lasting heat
- Heats more evenly than competing fillers
- Less likely to overheat than competing fillers
- Mold and mildew resistant

When heated in a microwave, the SmartBead™ filling draws water vapor from its surroundings to deliver penetrating moist heat deep into painful joints and tissue.

GEL | ICE™

Our advanced cooling devices feature our new GEL/ICE™ Technology, which includes individual gel ice cubes that are surrounded by a body of fluid-like cooling gel.

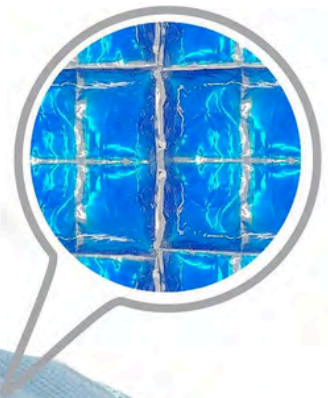

The result?

The longest-lasting cold we've ever created.

- New GEL/ICE™ Technology for longer, cold treatments
- Freezer or refrigerator compatible
- Soft inner lining is gentle against sensitive skin
- More gel concentrated around the fingers and toes

STAYS COLD UP TO 90 MINUTES*

*Based on internal testing.

FLEXI®
KOLD
By NatraCure®

COLD THERAPY

When it comes to healing your body, you want the tools the physical therapists and other healthcare professionals are using. The FlexiKold® Gel Cold Pack delivers cooling relief with a professional-grade gel interior that stays smooth and flexible when frozen. Our proprietary gel formula stays colder longer, delivering instant cold therapy you can count on!

Stays Pliable When Frozen

Remains flexible when frozen for improved contact.

The Professional's Choice

Used by thousands of healthcare professionals across the USA every day.

Long-lasting Cold

Provides longer-lasting cold therapy treatments than the competition.*

*Based on internal testing.

Built To Last

Includes a heavy-duty nylon exterior and double-sealed seams to prevent leaking.

FLEXIKOLD®

Amazon®'s best-selling cold pack brand, and for good reason: Colder for longer, flexible when frozen, and built to last for a long, long time. The FlexiKold® Gel Cold Pack delivers a professional-grade gel interior that stays smooth and flexible when frozen.

EYES

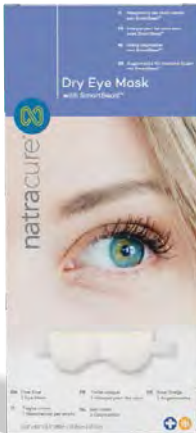

EYES

HOT OR COLD EYE MASK HOT/COLD THERAPY

SKU: EU416SBNC1

Chill or freeze weighted mask to help reduce swelling and pain of migraines and headaches. Microwaveable SmartBead™ filling allows for soothing, moist heat therapy relief. Heat in microwave to help combat puffy eyes and sinus pain.

DRY EYE MASK WITH SMARTBEAD™ HEAT THERAPY

SKU: EU417SBNC1

May help provide relief from discomfort caused by dry eyes and clogged oil ducts. SmartBead™ Technology provides gentle, moist heat therapy that can help with redness and puffiness around the eyes. Microwave to unlock the soothing warmth of SmartBead™ Technology, or chill for cooling relief.

MATERNITY

MATERNITY

BREASTFEEDING RELIEF PAD WITH COLD THERAPY

SKU: EU780-00NC4

May help soothe everyday nursing soreness and discomfort with the power of cold therapy. Gel filled pads stay flexible when frozen, allowing them to mold to the shape of your body for a more targeted treatment.

Includes 2 Gel Packs and 2 (7.08" x 7.08" x 0.5") Bamboo Covers.

BREASTFEEDING RELIEF PAD WITH HEAT THERAPY

SKU: EU781-00NC4

Each relief pad covers an increased surface area to better support milk flow with the power of heat therapy. May help encourage letdown and increase milk flow, reduce pumping time, relieve mastitis, and unclog milk ducts. Microwave to unleash SmartBead™ Technology's ability to provide gentle, moist heat therapy. Includes 2 Relief Pads and 2 (11.3" x 6.8" x 0.5") Bamboo Covers.

POSTPARTUM GEL COLD PACK COLD THERAPY

SKU: EU782-00NC6

Soothing gel cold packs may help relieve pain, swelling, itching, and vaginal discomfort from post-childbirth perineal and hemorrhoid pain, or pelvic nerve pain. Made with mylar that reflects cold back to the body.

Includes 2 Gel Packs and 4 (10" x 3" x 0.5") Bamboo Covers.

ADVANCED COOLING GEL

ADVANCED GEL

ADVANCED GEL COOLING MITTS WITH GEL/ICE™

SKU: EU761-00NC1

Concentrates more gel around the fingers so the cold lasts even longer in the places you need it most. There's a handy hook-and-loop closure at the wrist to customize your fit, and a soft inner lining that's gentle against sensitive skin.

ADVANCED GEL COOLING SLIPPERS WITH GEL/ICE™

SMALL/MEDIUM

LARGE/EXTRA LARGE

SKU: EU760-02NC1

SKU: EU760-04NC1

Concentrates more gel around the toes so the cold lasts even longer in the places you need it most. There are stretchable side seams so that the slippers fit a broader range of foot sizes. They include a soft inner lining that's gentle against sensitive skin. Available in 2 sizes.

ADVANCED GEL COOLING CAP WITH GEL/ICE™

SKU: EU762-00NC1

With its rounded top and ponytail-friendly design, the cooling cap maintains direct contact with the scalp for maximum benefit.
